## ABOUT ME

QA Tester with experience in manual and automated testing. I specialize in ensuring the quality of web applications through the design and execution of test cases, using tools such as JIRA, Cypress, Selenium, Postman, and JMeter, working within agile methodologies like Kanban and Scrum.

## TECHNICAL SKILLS

- **Tools:**
  - JIRA, Postman, Jmeter and SQL
- **Automation:**
  - Cypress (javascript) and Selenium (java)
- **Testing:**
  - Manual testing, API testing, black-box testing

## EXPERIENCE

### TEAMKNOWLOGY 2022 - PRESENT

QA Tester responsible for ensuring the quality of web applications. Designed and executed manual and automated test cases. Reported and tracked bugs using JIRA within a Kanban workflow. Developed automated tests with Cypress (JavaScript) and Selenium (Java). Performed API testing with Postman and load testing with JMeter. Collaborated with developers and product owners in agile environments to ensure high-quality releases.

### ELEKTROTHERMIT ARGENTINA S.R.L. 2011 - 2022

Responsible for purchasing and logistics operations. Managed staff, utilized SQL for data handling, and provided administrative support.

### ESTUDIO MAD 2015 - 2024

Technical assistance in recording and sound. Management of social media and audiovisual services.

### AKUA S.A. 2010

Administrative internship: document support, billing, and assistance with office tasks.
